

Custom Molded Pulp Packaging

An environmentally-friendly, efficient alternative to foam

'Before' – Sprayed foam packaging

Now there's a packaging solution that provides superior product protection, and is easy to use and recycle – Custom Molded Pulp. Made from recycled papers, Rollguard's Custom Molded Pulp packaging is extremely durable, and ideal for shipping and protecting heavy, industrial products.

Why Custom Molded Pulp?

Reliable product protection. The custom fit, 'Drop & Go' solution significantly reduces the occurrence of product damage, and in turn, increases customer satisfaction.

Ease and speed of loading. A 'Drop & Go' solution that frees up valuable labor time.

100% Recyclable. Supports full-circle sustainability.

Easy to ship and store. Rollguard's pre-made, custom molded pulp packaging is extremely light and is delivered in nested stacks to save space and transportation costs.

Readily available, delivered on-time. Rollguard is a reliable resource for protective packaging.

'After' – Consistent, Drop & Go Custom Molded Pulp Packaging

Ideal for...

- Products that weigh 10 lbs. or greater
- Lower-to-high volume, and palm-to-pallet sized items
